## ***Heritage Hotels at a Glance***

### **Introduction**

Heritage Management Ltd. manages and owns a portfolio of eight of Kenya's premier travel destinations, including Mara Explorer, Kipungani Explorer, Mara Intrepids, Siana Springs, Samburu Intrepids, Great Rift Valley Lodge and Golf Resort, Voyager Safari Camp and Voyager Beach Resort. Heritage provides guests with the high-quality safari product and personal, attentive service together with the flexible options and sophisticated "extras" demanded by today's discerning traveler.

Additionally, Heritage is committed to conserving Kenya's fragile wilderness areas and supporting poorer rural communities. In an industry led by demanding standards and an ever more discerning clientele, Heritage remains the only company in East Africa that can genuinely claim to offer its guests "the best of both worlds": the diversity, connections and reliability of Kenya's most experienced safari host, together with the personal service and tailor-made itineraries of some of Africa's most distinctive and exclusive safari destinations.

### **Destinations**

The flagship camp in the heart of the Maasai Mara, the Mara Explorer, and the enchanting desert-island hideaway on Lamu Island, Kipungani Explorer, offers the very best of both beach and bush as part of the luxury *Explorer* portfolio. With four of the country's leading safari destinations, including Mara Intrepids, Samburu Intrepids, the Great Rift Valley Lodge and Siana Springs, and a flexible range of 'fly-in' options, the *Intrepids* portfolio will maximize travelers' time on the ground – for a thrilling mix of wildlife viewing, ancient culture and modern sporting activities. The *Voyager* portfolio offers the very best value-for-money safaris in Africa, with a tantalizing combination of beautiful beach at the Mombasa Voyager Beach Resort, bountiful bush at the Voyager Safari camp in Tsavo National Park, and the level of service that has made Kenya the toast of the safari world.

### **Family Safari Program**

The travel industry has seen significant growth in family travel, particularly after 9/11. While theme parks and water parks tend to top the list of family-friendly destinations, Heritage Hotels invites families to experience the wonders of Africa together through a classic safari in Kenya. Offering the Adventurers Club for children 4-12, and the Young Rangers Club for teens, Heritage Hotels is proud to offer the most complete Safari program for youth in Africa today.

### **Environmental and Community Policies**

Each Heritage property is committed to conserving the surrounding wilderness and to supporting the local community that holds the key to its future. By combining the latest environmental technologies with traditional local knowledge, Heritage is working to create a model for sustainable ecotourism throughout the East African region. The company is committed to developing and empowering employees, in order to improve the performance, standards and reputation of the local hospitality industry.
